**The Finest in Completely Custom Antique Reproduction Lighting
All Handcrafted and Made in America!**

CLF: About us

Custom Lighting Fixtures, Inc. designs the finest in museum quality, totally custom, antique, historic and authentic home lighting fixture reproductions. All of our light fixtures are based on the old antique and vintage lighting styles and are hand crafted from **Solid Brass**, not plated or painted. Our period lamps and vintage light fixtures use UL® Listed porcelain sockets and are all tested for electrical continuity prior to shipping. Our products are **MADE IN THE USA!**

Whether a residential or commercial application, you can count on CLF for fine, period authentic quality as you will see from our online brass light gallery from Victorian, Colonial, Mission, Early American and more.

At CLF, we use only the finest Italian and/or Greek brass in the construction and design of every one of our originally designed, period, historic and accurate, reproduction lights. Whether you order many, or a single wall sconce, lamp, chandelier, pendant, table lamp, floor lamp or hanging ceiling fixture, you can be certain that your dining room, kitchen, bath room, den, study or retail location will house beautifully hand made CLF Lighting Fixtures.

CLF: Custom Options

With every single one of our fine antique reproduction lighting fixtures comes the ability to customize just about every aspect of its design. Custom options include **metal color** such as antique brass (light, medium or dark), polished or satin brass, polished or satin nickel, chrome, antique pewter, even mixed metals, custom height, width, backplate or canopy choice, imported glass shades, fabric shades, arm direction, arm style, holder style, tubing style, and more all the way down to the smallest finial. You can basically design your own custom lighting if you wish!

After working with many interior designers and architects, we have found that our extensive array of custom options are "imperative" when trying to create a custom **Lighting Theme** to coordinate your fixtures from room to room. No other company offers the level of customizations and possible combinations. Our many custom lighting fixture options simply translates into virtually **Endless Design Possibilities** for your home interior design project or commercial lighting project.

It is in your best interest to read through our full line of available **Custom Options** so you can be sure that your custom lighting fixture selections will meet your personal tastes and spatial requirements. You can always give us a call, Toll Free, to speak with a designer who will help you - **Call Toll Free 1.888.523.1999.**

CLF: Trade Discount

As mentioned above, we work closely with many interior designers, builders and architects. Since many of these jobs require larger lighting orders, we are happy to offer a **Trade Discount**. If you are a member of the home or interior design trade, please let us know at the time of your order. We will simply request a few pieces of documentation and then email our Trade Application. Fill it out, send it back and you'll enjoy your discount benefits, and speedier delivery, as a CLF Trade Member.
